**Subject:** Cuyahoga River mussel study

Hi Mike,

I have this vague memory of an e-mail, report or conversation about a mussel study/survey conducted in the Cuyahoga River downstream of the Gorge Dam, but I can't find any e-mails or files associated with it. I feel like this information came from you or someone at Metro Parks. Or was maybe mentioned in correspondence or consultation with USFWS or ODNR. Does this ring any bells? Did Metro Parks conduct a mussel study in the last few years?
